 Code Smell 101

Tags ▾

Search by name... 

Functions should not have too many lines of code
 Code Smell
Track uses of "NOSONAR" comments
 Code Smell
Track comments matching a regular expression
 Code Smell
Statements should be on separate lines
 Code Smell
Functions should not contain too many return statements
 Code Smell
Files should not have too many lines of code
 Code Smell
Lines should not be too long
 Code Smell
Methods and properties that don't access instance data should be static
 Code Smell
New-style classes should be used
 Code Smell
Parentheses should not be used after certain keywords
 Code Smell
Track "TODO" and "FIXME" comments that do not contain a reference to a person
 Code Smell
Module names should comply with a naming convention

Cyclomatic Complexity of classes should not be too high

Analyze your code high

 Code Smell

 Critical

The cyclomatic complexity of a class should not exceed a defined threshold. Complex code can perform poorly and will in any case be difficult to understand and therefore to maintain.

Deprecated

This rule is deprecated, and will eventually be removed.
